

Jeová Farias Sales Rocha Neto

Searles Hall 121, Bowdoin College, Zip Code: 04011 – Brunswick – PA

+1 631 538 8982 • j.farias@bowdoin.edu • jeovafarias.github.io • linkedin.com/in/jeova-farias

Education

Brown University

Providence, RI • 2016 – 2021

- PhD. in Computer Engineering, MSc. in Applied Mathematics (GPA: 4.0)
- *Research Focus*: Discrete Optimization for Image Segmentation and Clustering
- *Adviser*: Pedro F. Felzenszwalb.

University of Nice-Sophia Antipolis

Sophia-Antipolis, France • 2014 – 2015

- MSc. in Computer Science, *with Honors*
- *Supervisor*: Marc Antonini.

Federal University of Ceará

Fortaleza, Brazil • 2011 – 2015

- BEng. in Telematics Engineering, *Magna cum Laude*
- *Supervisor*: Fátima N. Sombra de Medeiros.

Work Experience

Computer Science Department at Bowdoin College, Assistant Professor

Brunswick, ME • 2023 –

Computer Science Department at Haverford College, Visiting Assistant Professor

Haverford, PA • 2021 – 2023

- Taught the introductory courses to Computer Science (Intro to Programming and Data Structures) • Taught a course in Deep Learning for Computer Vision • Co-taught Foundations of Data Science and Machine Learning.
- Advised more than 15 undergraduate students (from freshmen to seniors) in research projects in the areas of biomedical image segmentation, clustering, spectral image segmentation, topic modeling for computer vision, and unsupervised deep learning.
- Participated on a multidisciplinary NSF funded research project on the perception of GAN-generated faces, led by Profs. Ryan Lei (Psychology) and Alvin Grissom (CS) • Acted as the computer vision expert and advised the undergraduate members.

Laboratory for Engineering Man/Machine Systems (LEMS), Research Assistant

Providence, RI • 2016 – 2021

- Developed two algorithms to unsupervisedly estimate the color distributions in the regions of an image and use them to efficiently segment it using Graph-cuts • Developed the connection between the problem of Topic Modeling and Image Segmentation.
- Proposed a multi-view spectral image segmentation algorithm that incorporates long range relationships for global appearance modeling • The method provided a natural interpretation for the cut criteria and was able to greatly outperform traditional spectral segmentation methods.
- Generalized the Normalized Cuts Algorithm to leverage expert segmentation information via a penalty function
- Worked on new ADMM-based optimization algorithms for hypergraph clustering to and subspace clustering.

Informatics, Signals and Systems Laboratory (I3S), Research Assistant

Sophia Antipolis, France • 2014 – 2015

- Studied 3D and 2D/3D shape descriptors for view-based indexing and retrieval of 3D meshes • Proposed the application of learning algorithms such as boosting and SVMs to classify 3D models using these descriptors

Vision, Images and Signals Laboratory (LABVIS), Research Assistant

Fortaleza, Brazil • 2013 – 2014, 2015 – 2016

- Designed several algorithms to SAR image segmentation using the statistical information extracted directly from the images • Published three journal papers on these findings.
- Designed a novel level set algorithm for image segmentation • Presented it in one of the main computer vision conferences (ICIP).
- Worked on new algorithms for biomedical image segmentation (cervical cell and fundus images, specifically) and for improving shape retrieval tasks with applications to in healthcare datasets • Published the results in journal and conferences papers.

Teaching & Advising Experience

Teaching

Deep Learning for Computer Vision (CS396), Main Instructor and Course Designer

Haverford College • Fall, 2022

- Designed to cover the most recent Deep Learning solutions to Computer Vision, going from image classification, object detection, segmentation, denoising and image generation. • Fully designed in PyTorch with accompanying explanatory IPython notebooks.

Data Structures (CS106) , Main Instructor and Course Designer	Haverford College • Spring, 2022-2023
<ul style="list-style-type: none"> Designed in Java, it covered Object Oriented Programming the the traditional data structures (lists, queues, stacks, graphs, hashing, etc.). The course received praise from the department and students. 	
Machine Learning (CS360) , Co-Instructor	Haverford College • Spring, 2022
Introduction to Computer Science (CS105) , Main Instructor and Course Designer	Haverford College • Fall, 2021-2022
<ul style="list-style-type: none"> Designed in Python, the foundations of computer science to students without prior experience in programming Covered variables, conditional statements, loops, file management, exception handling and Numpy. 	
Foundations of Data Science (CS260) , Co-Instructor	Haverford College • Fall, 2021
Artificial Intelligence and Deep Learning , Instructor and Course Designer	Brown University • Summer, 2019
<ul style="list-style-type: none"> Designed and taught course on Deep Learning entirely designed to high-schoolers with none or very little background on Calculus and Algebra The class had a duration of 60h and included homeworks and class assignments on Jupyter/IPython. 	
Introduction to Matlab , Instructor and Course Designer	Federal University of Ceará • Jan – Feb, 2013
<ul style="list-style-type: none"> Short course (16 h) on the basics of Matlab and its applications in engineering The course content and materials, which included a 90-page long Matlab tutorial in Portuguese written in L^AT_EX(link to download), were compiled by me specially for this class. 	
Linear Systems (ENGN 1570) , Teaching Assistant	Brown University • Fall, 2020
Machine Learning and Pattern Recognition (ENGN 2520) , Teaching Assistant	Brown University • Spring, 2019
Research Advising and Metoring.....	
Undergraduate and Masters Research Projects, Research Advisor	
<ul style="list-style-type: none"> Issac Wasserman 	Haverford College • Fall, 2022 – Spring, 2023

Direct Reading Program in Applied Math , Mentor	Brown University • Spring, 2019 – Fall, 2020
<ul style="list-style-type: none"> Advised undergraduate research projects on topics related to the mathematical foundations of Deep Learning. 	

Other.....

The Sheridan Teaching Seminars, Certified Participant

Brown University • 2020 – 2021

- Received teaching certificates on Reflective Teaching (I) and Course Design (II) from Brown's Sheridan Center for Teaching and Learning. These intensive programs certificates recognize one's ability to develop their teaching practice in order to support diverse learners (I), while developing professional and inclusive courses' syllabi (II).

Academic Service & Engagement

Talk.....

- "Penalized Normalized Cuts" at Joint Mathematics Meetings 2022

Seattle, Apr 2022

Peer-reviewer.....

- o IEEE Journal of Selected Topics in Applied Earth Observations and Remote Sensing 2016–
- o International Journal of Computer Vision 2020–
- o Artificial Intelligence Review 2020–
- o IEEE Transactions on Pattern Analysis and Machine Intelligence 2021–
- o ISPRS Journal of Photogrammetry and Remote Sensing 2022–
- o Winter Conference on Applications of Computer Vision (WACV) 2023

Memberships.....

- o Sigma Xi Scientific Research Honor Society (*Associate Member*, earned by nomination) Jun, 2019 –
- o Society for Industrial and Applied Mathematics - SIAM Jan, 2019 –

Workshop Organization / Participation.....

- o Computer Vision Semester Program at ICERM (*Attended*) Spring, 2019
- o Undergraduate Workshop on Scientific Writing (*Organizer*) Oct, 2013 • Mar, 2014 • Oct 2014 • Oct, 2015

Other.....

- o Applied Math/ICERM Machine Learning Journal Club (*Co-organizer*) Jan, 2019 – Mar, 2020
- o 2021 Brazil Conference at Harvard & MIT (*Staff Member and Co-organizer*) Oct, 2020 – Jun, 2021

Awards

Prize.....

- o Sigma Xi Prize (excellence in research in Electrical Sciences and Computer Engineering at Brown U.) 2018

Scholarships and Grants.....

- o Brown University's School of Engineering Graduate Fellowship 2016 –
- o BRAFITEC (*Brésil-France Ingénierie et Technologie*) Full Scholarship for Masters studies in France 2014 – 2015
- o CNPq (Brazilian National Agency for Scientific Research, in Portuguese) Research Grant 2013 – 2014

Skills

Languages: Portuguese (*Mother Tongue*), English (*TOEFL Score: 109*), French (*Professional Working Proficiency*)

Technical: Matlab, Python (*Numpy, Scikit-Learn, Keras, TensorFlow, PyTorch*), Java, C++ (*OpenCV*), Git, L^AT_EX/ Beamer
